Physics 263-001
Mid Term Project

You may work in groups of 2 or 3 ONLY! EVERYONE MUST BE INVOLVED IN ALL STEPS! The internet is your friend. Do not copy someone's code though.

Project:

- Develop your own 2D Ising Model.
- Then do Problem 5.13 with it. e.g., use it to come up with a phase diagram. Find χ
- In addition to that, find a plot for C.
- Write that up in a logical way using APS format (see pra.aps.org for example, template can be found on sharelatex.)
